cools*

*after
insect bites
skin irritation
small injuries*

PRODUCT DESCRIPTION

- API-FLUID** contains organically grown onion and lavender extracts as well as isopropyl alcohol (there are no additional chemicals or preservatives, as are commonly used).
- API-FLUID** is a highly effective natural product.
- API-FLUID** uses the natural antibiotic, anti-inflammatory and allergy-suppressant properties of onions known in traditional medicine, along with the cooling action of evaporating alcohol.
- API-FLUID** is gentle to the skin, non-sticky and does not leave a film. Instead it has
1. a cooling effect and
 2. a pleasant fragrance, which is also effective in preventing insect bites.
- API-FLUID** can be stored as a normal household remedy (no special storage requirements), making it ideal for use in first-aid kits for travel.
- API-FLUID** may be applied to small areas (on insect bites) or larger areas (in case of contact with stinging nettle or mild sunburn).
- API-FLUID** is used to treat insect bites and stings, skin irritation, sunburn and contact with stinging nettle.
- API-FLUID** may be used on small children as well as pregnant women, even during the first trimester.
- API-FLUID** fits in any (sport) bag or travel kit. It is easy to use.
- API-FLUID** is suitable for external application.
